

## 265 MODEL SHOTBLASTER

### Product details:

The 265 Model Shotblaster is a mid range machine, yet powerful and accurate to deliver quick, high quality results. Like all of our shotblasters the body is intelligently designed for stability and to produce a uniform blast pattern. It is easily maneuvered in confined areas and ideal for any project size.

### Features:

- Easy change Tuning Kit which can be completed in 15 minutes
- Simple and easy to use with precise controls for operator comfort
- Quick release filter system from side panel entry
- Non wearing magnetic seals for superior sealing and recovery
- Blasting width easily reduced for removal of line markings and weld inspections
- Highly efficient filtration unit for optimum dust control

### Applications:

- Removal of coatings, rubber deposits and contaminants from a wide range of background surfaces
- Steel preparation to SA3 standard
- Surface re-texturing including asphalt
- Laitance removal on new concrete
