# Airvac Portable Vacuum Recovery System

# Airvac Portable Vacuum Recovery System

## Cleaning and Removal System

The Airvac is a robust, compact, highly efficient, pneumatic recovery unit, designed to work on clean-up operations.

## Features

The Airvac is capable of recovering spent abrasives or any other form of solid materials, ranging in size up to 20mm over a distance of up to 30m. The unit is fully air-operated and only requires 250cfm of air at 85psi pressure (7m<sup>3</sup>/min. at 5.8bar).

No other form of power is required to operate the unit. A simple modification converts the Airvac into a ventilation unit for ducting air from tanks etc.

## Accessories

A full range of accessories is available including:

- Suction and material conveying hoses suitable for conveying all bulk materials and blasting media
- Reinforced and flexible hose for light cleaning
- PVC vacuum hose for industrial cleaning
- Light rubber hose for the suction of abrasive materials
- Durable rubber hose for heavy duty suction and retrieval.

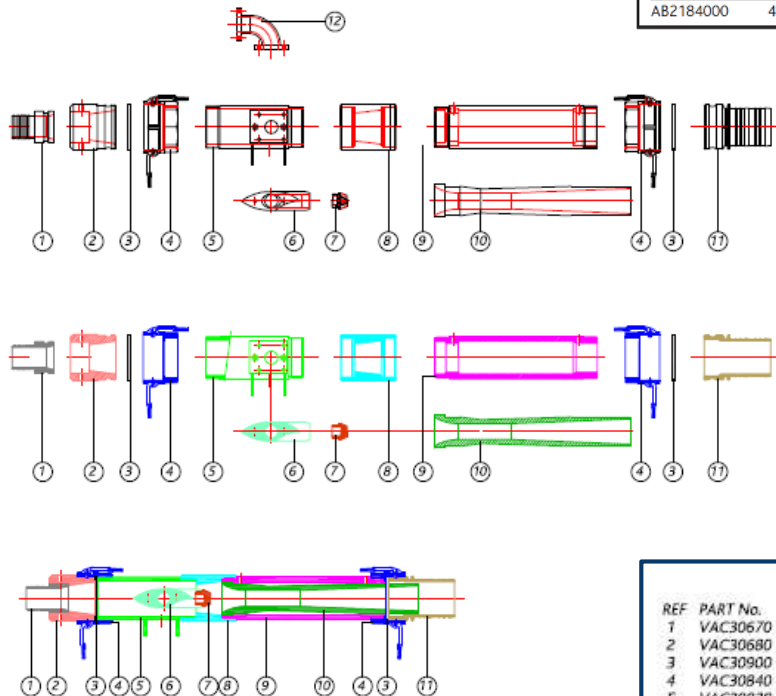

In addition, a full range of couplings, connectors, suction hose manifolds complement the range.

### Airvac Mark III assembly

Part no. AB3064000  
Weight 27kg

### Airvac optional accessories

| Part no.  | Description                                 |
|-----------|---|
| AB2183000 | 2½" (62mm) antistatic flexible plastic hose |
| AB2184000 | 4" (100mm) antistatic flexible plastic hose |

| REF | PART No. | DRG No.   | DESCRIPTION                  | QTY |
|-----|----------|-----------|------------------------------|-----|
| 1   | VAC30670 | AB4073D   | SUCTION HOSE COUPLING INSERT | 1   |
| 2   | VAC30680 | AB4074D   | SUCTION HOSE COUPLING        | 1   |
| 3   | VAC30900 |           | SEALING RING                 | 2   |
| 4   | VAC30840 |           | BODY COUPLER                 | 2   |
| 5   | VAC30820 | AB4075D   | BODY                         | 1   |
| 6   | VAC30810 | AB4076D   | AEROFOIL                     | 1   |
| 7   | VAC30740 | AB4077D-B | NOZZLE                       | 1   |
